

ADVANCED COFFEE SOLUTION

Technical features:

- Width 270mm (340 mm) 10.6 in (13.4 in)
- Depth 445 mm (510 mm) 17.5 in (20 in)
- Height 370 mm (525 mm) 14.5 in (20.7 in)
- Weight 21 Kg (25 Kg) 46 oz (55 oz)
- Max power 2250 watts 9.8 Amp 230/50
- Max power 1250 watts 10.5 Amps 120/60 (Sequential heating)
- Simultaneous heating for 208/240 volts versions, sequential heating for 100/120 volts
- Steam boiler AISI 316L 2.3 liters, built in heating element stainless steel 1200 watts
- Brew boiler AISI 316L 0.8 liters, built in heating element stainless steel 1000 watts
- Tank 2.6 liters
- E61 group solenoid actuated
- PID control with display and manometer with dual scale (steam pressure and pump pressure), automatic filling boiler, shot timer and LSP (last shot protection) a function able to finish the shot even if the low level tank is reached. Low lever tank signal.
